## GROWING.

Rubber Plant at Beach City.

Prices Are Steady This Week.

Talk of a New East Akron Factory.

Mr. S. S. Switzer, a brother of Dr. L. L. Switzer, is manager of the Tuscarora Rubber Co., at Beach City, whose capital stock is to be increased from \$10,000 to \$25,000. The practical rubber man in the business is a Mr. Marks and between them these gentlemen are making the plant a success, it is said. The company is putting out various specialties and tires.

Mr. S. M. Anderson, who was interested with Dr. Switzer in the Valley Rubber Co. at New Philadelphia, is president of the company.

The rubber market has been quiet this week, with little change in prices. Estimates have been received showing that the Para crop is about 10 per cent. less than an average. Other estimates place the shortage at 20 per cent.

There are rumors of a new rubber factory for East Akron. They may be only rumors. The report which is current in rubber circles does not connect with the East Akron story any of the three known movements toward a new rubber factory in Akron.

"The rubber works people, as a class, appear to have a good eye to business," said a street car conductor last night. "They buy tickets by the dollar's worth every time—except the young women, who always buy a quarter's worth—and after a pay day at the rubber works I cannot carry enough tickets to supply the demand. I have sometimes thought that it is what these employees learn in the rubber shops which teaches them that it is a great point to take advantage of every discount possible."

Mr. Elmer Shaw, of South Main st., the young man, who swallowed a piece of rubber tubing, while employed at the Goodrich Co., about a year ago, has not yet fully recovered. The rubber has lodged in his lungs, and he has, since swallowing it, coughed up fully one side of his lung. He is at present able to be about, but is still very weak. Physicians say that if an operation had been performed the day he swallowed the rubber, he would undoubtedly be well and strong at this time.

A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine.

William Warner, Gem Pharmacy, 113 S. Howard st.

**TOO BAD FOR THE DUKE.**

But He May Attend Summit County's Fair If He Likes.

Washington, Sept. 6.—The state department has forbidden the management of the Pan-American exposition to extend an invitation to the Duke and Duchess of York to visit the Buffalo show. No explanation is made of this action. President Buchanan now has the letter in his possession, and will do as he is told.

The duke and duchess are making a tour of the British possessions and are now in Canada. It has been announced that they did not intend to touch on American soil, but evidently the state department is taking no chances.

The most plausible explanation of

the department's note was given by a diplomat last night. He said that the duke, although a son of King Edward, of England, is not accredited officially to the United States and that therefore he should not be the recipient of official honors. The Pan-American exposition is being held in a sense under the auspices of the United States Government, and an invitation to the royal couple would be tantamount to their recognition by this Government.

**SAVE \$700,000.**

Erie's President Is Making Changes.

President F. D. Underwood will make many changes on the Erie system. He has abolished the office of general superintendent of the Ohio division, and A. M. Moller, a bright and able railroad man, has been assigned to duties in the operating department. The duties of the office have been assumed by H. E. Gilpin, assistant general manager, and George Van Keuren, general superintendent of transportation. It is now announced that after many inspections of the Erie railroad, and careful consideration of its resources, President Underwood has decided that at least \$700,000 can be saved annually by abolishing certain offices. He is opposed to having a larger number of high salaried officials than necessary. When a road has more vice presidents and general managers than section men, something is bound to go wrong.

10,000 rolls of wall paper at less than factory prices, 2c, 3c, 5c, 8c, 10c and 12c a double roll. Special low prices in China and Japanese matting. M. O'Neill & Co.

**NOT A DEBATE.**

Rev. Crispin Objected to Having a Joint Discussion.

The Prohibitionists of Kent and vicinity held an "open air" meeting at Kent Thursday night. A large number turned out to hear Rev. W. F. Crispin of Akron. A band furnished music.

Rev. Crispin's address was several times interrupted by an intoxicated individual, who desired to debate the question. Finally Rev. Crispin drew a permit from his pocket, signed by Mayor Rockwell, and commanded the man to move on, concluding his statement by saying: "The Mayor of this city is with us, and if you don't keep still, you'll be arrested." The fellow went.

**CONSOLIDATED.**

Engraving Companies Combine Their Interests—S. & O. Co. Remains in the City.

Akron's photo-engraving interests are about to be consolidated, with the result that the S. & O. Engraving company will still remain in this city. The company has consolidated with the Rogers Engraving company and the new establishment will transact business under the name of the S. & O. Engraving Co.

Until October 1st, the business will be carried on at 705 East Mill st., pending the addition of another story and other extensive improvements to the building at 603 Main st., where they will locate after the above date.

The latest Royle machinery, which includes every known appliance for the correct finishing of printing plates, has already been received and the new plant will be up-to-date in every respect. The new machinery includes the famous Micrometer Raised Line Reverser, Modern Rotary Edger and the improved Daniels Planer. The improved building will be equipped with an elegant skylight and both sun and electric light will be available for the work. No plant in this country will be better equipped for the production of high grade work and, as the original proprietors of the two firms maintain the management of the new establishment, there will be no deterioration of the usual high class work produced.

## NOVELTY.

New Jail Only One of Its Kind.

Conveniently Arranged and Impregnable.

Plenty of Air and Light For Prisoners.

Plans Commended by State Board of Charities.

Prisoners in the new Summit county jail, when it is complete will have a temporary home second to none of its kind in the United States. Each prisoner will be able to see out and find out just what the outside world and the free air is like, and will have a window that can be opened without a chance of his getting away. These windows all open on a central court and are the inlets for the light that feeds the entire interior of the jail, according to the plans now being finalized by Architect F. O. Weary. The central inner court will have no roof and will enable the prisoners to have the air as well as the light.

Between the captive and the actual court will be two screens, besides the window, which can be opened or shut by the guard or deputy without the possibility of interference by the prisoner.

By an ingenious arrangement prisoners may all take the air at the same time, from their windows, and yet no one of them will be able to see any other who is in captivity at the same time.

On the third floor will be a double row of larger cells than those on the other two floors. These will be reserved for women, prisoners detained for minor offenses, or any persons whom the Sheriff may not wish to have among the rows of cells reserved for more desperate characters.

The jail will have a normal capacity of 36 cells. Provision is made for a hospital, baths, toilets, wash bowls, places for washing clothes and will be a model of foresight and convenience.

The interior is arranged so that escape will be apparently impossible and the outer walls are so planned that the place will be a fortress. Towers at the corners enable enfilading each side. Port holes for guards or soldiers, if necessary, are arranged and it is safe to say that a repetition of last year's performance would be successful at the new jail only after a protracted siege.

The plans have the warm endorsement of the State Board of Charities.

**MRS. LAURA ALLEN.**

Widow of a Pioneer Business Man Is Dead.

Mrs. Laura M. Allen, widow of the late W. T. Allen, who was a pioneer in the stove business in Akron, died Thursday night at her home, 157 South High st. of exhaustion. She was a sister of Miss Mary McCartney, whose death occurred Aug. 28, at their High st. home.

Mrs. Allen was aged 75 years and had many friends among the older residents of Akron. Funeral services will be held from the house at 4 p. m. Saturday.

Henry Braydon, Harris, N. C., says: "I took medicine 20 years for asthma but one bottle of One Minute Cough Cure did me more good than anything else during that time. Best Cough Cure."

## BOTTOM OUT.

Akron Man's View of the Steel Strike.

"The whole bottom of the steel strike has fallen out," said J. Ben Campbell, Thursday. Mr. Campbell had just returned from Pittsburgh. "The strikers are nearly all anxious to go back," said he, "and the way President Shaffer keeps his courage up when he has practically lost, is remarkable. The strike should never have taken place. The Amalgamated association has greatly weakened itself."

## BIG POLICY.

D. King Paige Was Its Fortunate Writer.

Some Akron man is the possessor of an insurance policy for \$30,000. The Western Underwriter is responsible for the statement, and it is known to be correct. It is spoken of as the largest policy written in Akron this year and D. King Paige is named as the writer. The company is the Mutual Life.

## Holmes and Summit.

Among those who attended the Holmes-Wayne county picnic at Akron Monday were Joshua Stuber, Aaron Stuber and Robert Reimschuessel of this place.

Roy Knox of Akron spent a couple of days recently with Millersburg friends.

Mrs. Wm. Henderson returned home Sunday from a visit with friends in Akron and Barberton.

Emil Vierling of Akron spent Sunday and Monday with his parents in this place.

## ROMANCE

Ended In the Happiest of Happy Ways.

Mr. Arthur Riley and Miss Sarah Riley were married Wednesday afternoon by Rev. W. D. Van Voorhis at the Fourth Church of Christ in the presence of 100 guests. This is the culmination of a somewhat romantic courtship. Mr. Riley met Miss Riley, a former playmate, upon his return to England a year ago, and a little love affair of their childhood was renewed. Two weeks ago the young lady arrived in New York and her lover was at the pier to meet her. He brought her to the home of friends here. Mr. Riley is with the American Hard Rubber Co.

B. W. Pursell, Kintnersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless.
